About us....

Stan Coly, BS

and

Sheila Coly, BFA, BS Ed

We have over 25 years combined teaching experience and share a love for teaching children about art, science, math, world cultures and languages. Between us, we speak 12 languages, which we incorporate in our teaching. We have a strong belief that art should be accessible to everyone, which is why it is our studio's mission to bring an appreciation for fine arts, world crafts and world cultures to as many people in our community as possible.
